

# Assignment 1:

Profile

File | C:/Users/DELL/Desktop/WT%20Assignment/Assignment%201/Introduction.html

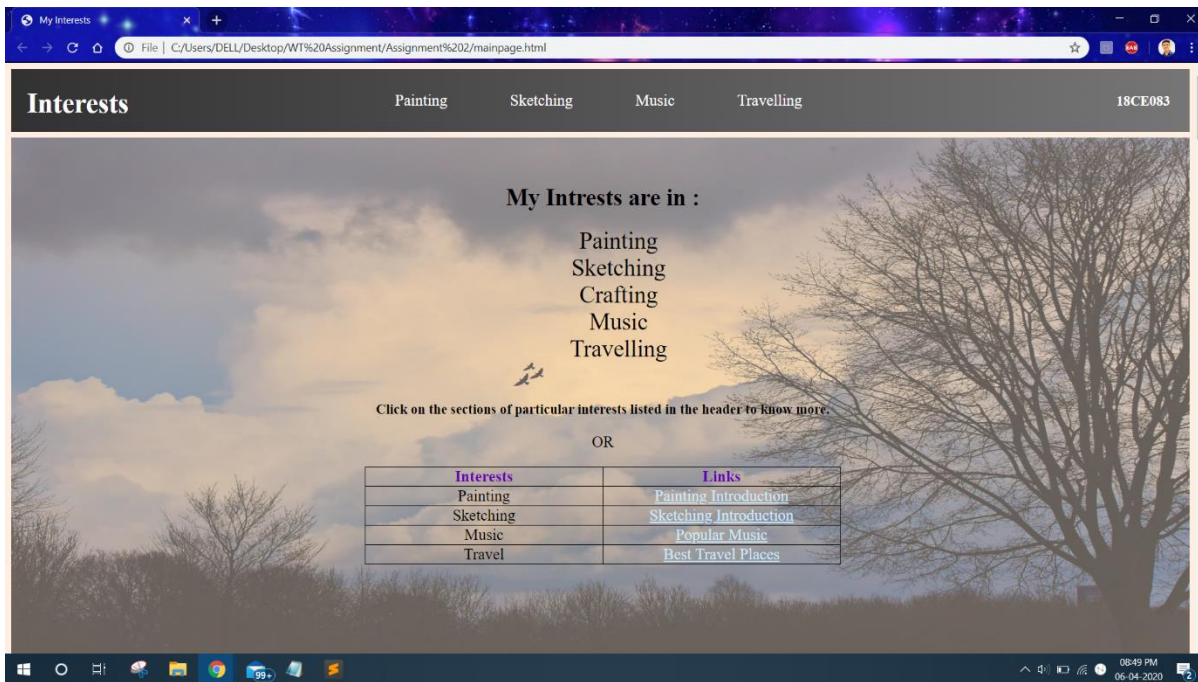

## Nirmit Patel WT Assignment

I am a Computer Engineering student.  
Currently I study in CHARUSAT University - 4th Semester  
ID : 18CE083

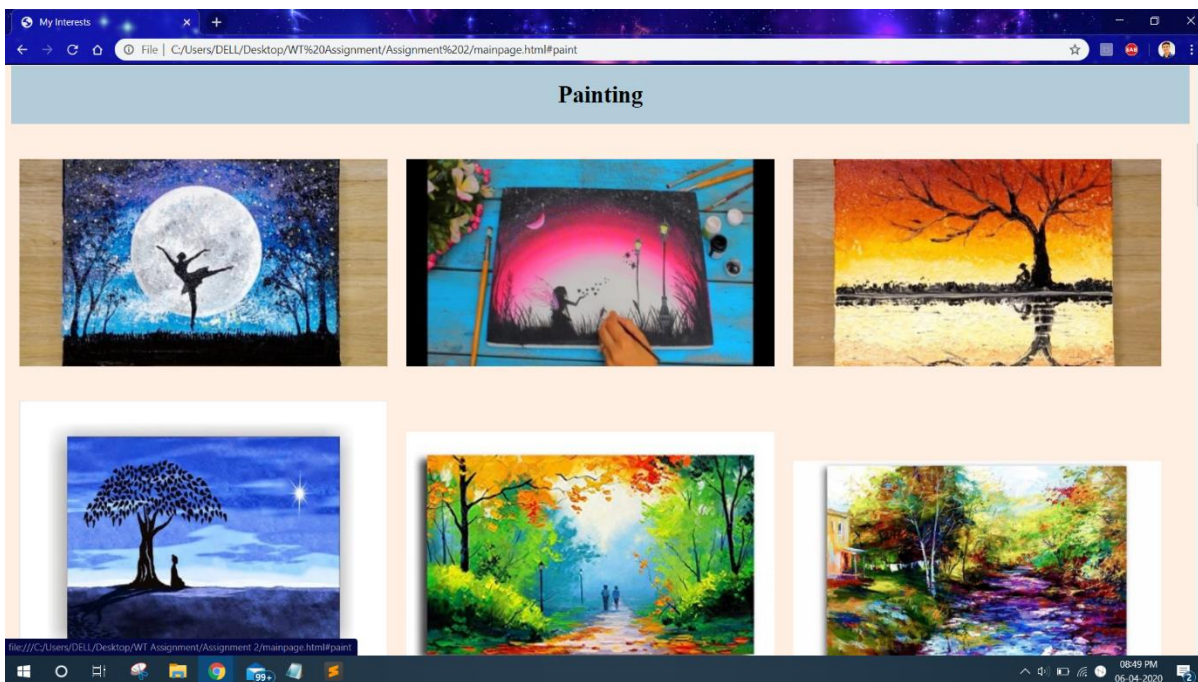

08:47 PM  
06-04-2020

## Assignment 2:

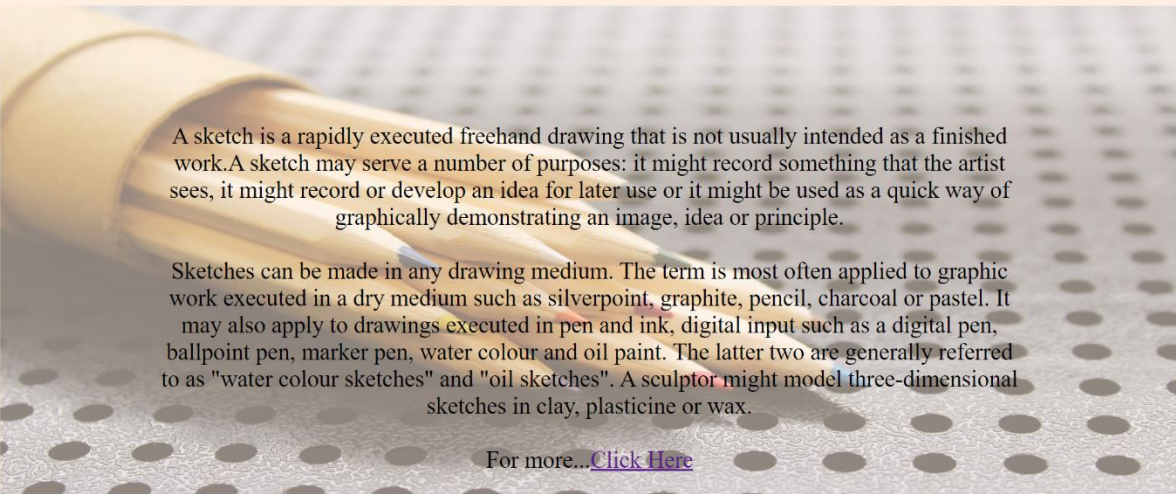

Clicking on Particular interest in the header the page scrolls down to the respective location.

My Interests

File | C:/Users/DELL/Desktop/WT%20Assignment/Assignment%202/mainpage.html#sketch

## Sketching

A sketch is a rapidly executed freehand drawing that is not usually intended as a finished work. A sketch may serve a number of purposes: it might record something that the artist sees, it might record or develop an idea for later use or it might be used as a quick way of graphically demonstrating an image, idea or principle.

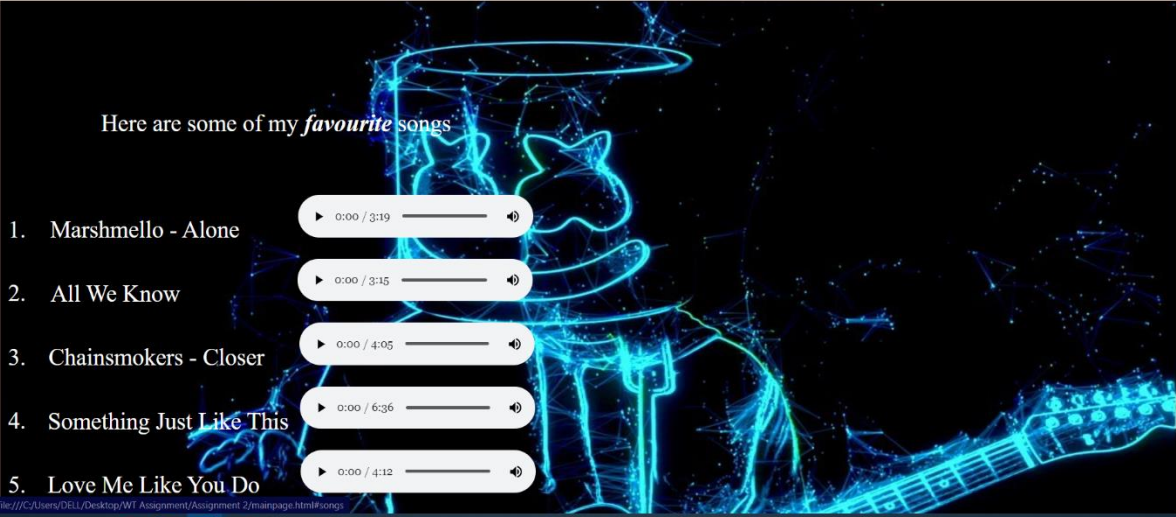

Sketches can be made in any drawing medium. The term is most often applied to graphic work executed in a dry medium such as silverpoint, graphite, pencil, charcoal or pastel. It may also apply to drawings executed in pen and ink, digital input such as a digital pen, ballpoint pen, marker pen, water colour and oil paint. The latter two are generally referred to as "water colour sketches" and "oil sketches". A sculptor might model three-dimensional sketches in clay, plasticine or wax.
